

## Transmittable Diseases Notification and Liability Waiver

Apex Peak Schools Inc (Apex Peak Preschool Montessori and/or Apex Peak K-5 Programs) follows all the guidelines required for all licensed child/day care centers as regulated in North Carolina.

Once a health alert has been made public or the school has been notified by Federal, State or County authorities of illness outbreaks, we may alter the procedures at school to omit or include certain practices and activities in order to best meet the recommendations of such authorities. Examples of these situations which require enhanced or modified procedures are flu season, strep throat diagnosis, common childhood illnesses, lice, seasonal, environmental or epidemic outbreaks, among others and non limiting.

While the staff and administration of the school make every effort to safeguard the health of the children and staff, we cannot guarantee an illness-free environment. School attendance is only one part of the children and staff lives and we cannot control all the circumstances that may lead to illness and contagion.

**Therefore, we ask that families take every precaution necessary to minimize the risk of contagion or exposure inside and outside of school to every family member, including pets. One single case of COVID-19 in the family may lead to the whole school closing for at least one week.**

Also, because of new operational requirements from authorities and insurance, we find ourselves in the need to ask of families the signature of this document as a notification of the health risks associated with attending any group educational or recreational program in regard to contagious diseases that are common to childhood, knowingly seasonal, may not be preventable, may not be outwardly noticeable, or may be still spread even when the carrier remains asymptomatic.

So by signing this page you will be agreeing to knowledge of the health risks involved and to the following

Liability Waiver: I realize that any educational or recreational program such as the one provided by Apex Peak Schools Inc and its affiliated programs which involve group activities and attendance to a care facility may result in illness or contagion of diseases. I permit my child to participate and release Apex Peak Schools Inc, its owners, employees, instructors and staff from all and any liability for illness or disease that may occur due or during his/her participation in this program.
